

HUMPBACK WHALE SAFARI

WITH NOSY SAKATIA

"ENCOUNTER HUMPBACK WHALES IN NOSY BE"

From august to october, humpback whales come to visit in the water of Nosy Be to reproduce and give birth to their calves.

This migration is the opportunity to observe this extraordinary show: Mother / calf couple resting on the surface, caudal and pectoral strikes and often spectacular breaches! It is not uncommon during outings to observe other species of cetaceans like spinner dolphins!

This outing is an opportunity for us to inform and sensitize travelers about marine mammals.

PROGRAM

8:15 a.m.: Briefing and departure
Morning on the sea to looking for cetacean and whale watching
12:30 p.m.: Lunch on the island of Nosy Sakatia
2:30 p.m.: Snorkeling with turtles
